

Give Hope
a Hand

www.hohmartin.org

Since 1984, **House of Hope** has been a source of help and hope to people in Martin County who are struggling through hard times. HOH provides food, clothing, household necessities, financial assistance and case management to people who work hard but find themselves unable to make ends meet. People we help are typically low-wage workers, fixed-income senior citizens, single parents, the recently unemployed and people going through personal life crises. The demand is overwhelming, with an **80% increase in requests** since 2008 for emergency help with the most basic human needs.
