About HOH

House of Hope is a community service agency, founded in 1984, that offers help and hope to people who are struggling through hard times.

HOH provides food, clothing, emergency financial assistance and case management to people who work hard to support their families but find themselves coming up short. Our clients are typically low-wage service industry workers, fixed-income senior citizens, the recently unemployed and people going through personal life crises.

These are people you know. They are your neighbors in need.
